Site Review – 2660 & 2700 Stone Arch Road, proposed landscape water feature

Council met at the construction site of 2660 and 2700 Stone Arch Road, to review the proposed location of a shared landscape water feature. The landscape water pond will overlap the shared property line of 2660 and 2700 Stone Arch Road. The water feature will be jointly owned. Each property owner will have a separate pump feature to operate the water falls feature.

The contractor marked the proposed pond location with paint to assist in the review. Several questions were asked with regard to the noise level and lighting of the pond. Mr. Jim Brown, 2660 Stone Arch Road and construction contractor Mike Schroeder each addressed several questions regarding water levels and elevation of the water falls.

The Council will hear the request for variance and special use permit at a public hearing on Monday, February 9, 2009.

ADJOURNMENT
